SUMMARY

Frontend Engineer with 7+ years of experience building production web applications with React, Next.js and TypeScript, plus deep Vue 3 and Nuxt 3 experience. Built the core sales platform for a real estate developer, replaced authentication at an Israeli B2B SaaS startup and delivered 30+ client projects. AI-native: Claude Code, MCP and multi-agent workflows in daily work.

EXPERIENCE

Frontend Engineer

Oct 2024 – Jul 2026

Galereya Novostroek — Almaty, Kazakhstan · Real estate

- Built “Shakhmatka”, the company’s core apartment inventory platform with CRM and AI integrations, used daily by the entire sales department and leadership (Nuxt 3, TypeScript).
- Built a bulk editor for complexes of up to 10,000 units with real-time saving and pricing by down-payment tier; optimized rendering and state updates to keep the UI fast at that scale.
- Turned Excel-based call quality audits into a web app with automatic scoring, then automated it with AI: calls are transcribed and checked against the checklist by an LLM.
- Migrated the company website from a monolith to Nuxt 3; built a WebView app for buyers with online contract signing; ran an 8-lesson AI course for executives.
- Led frontend development; designed the frontend architecture and GitLab CI/CD from scratch.

Lead Frontend Engineer (Contract)

Sep 2025 – Mar 2026

Satya Digital Intelligence — Herzliya, Israel · B2B SaaS (OSINT) · in parallel with Galereya

- Sole frontend engineer on an OSINT intelligence platform (React, Next.js, TypeScript); reworked the whole UI.
- Replaced the entire authentication and authorization layer with Descope.
- Built reporting pages and a Node.js report microservice; designed API contracts with the backend.

Frontend Engineer

Nov 2019 – Sep 2024

Ibec Systems — Almaty, Kazakhstan · Web development agency

- Delivered 30+ projects, from landing pages to large internal systems, for banking, fintech, e-commerce and media clients (React, Next.js, Vue 3, Nuxt 3).
- Kino.kz (national cinema ticketing service): large-scale redesign as part of the team, Apple Pay checkout, Next.js performance optimization.
- Bigroup React redesign; BankRBK full redesign on Nuxt; Eurasia Life frontend built from scratch.
- Co-author of the nuxt3-ui-kit component library; also Imex, Netmore, IQanat, Domkz, Astana Opera, Tele2.

Web Developer

Sep 2018 – Aug 2019

Aida Service — Almaty, Kazakhstan · E-commerce

- Built the aida.market website and internal web applications (Vue, Nuxt, Node.js, WebSockets).

SKILLS

- **Frontend:** React, Next.js, TypeScript, JavaScript, Redux, TanStack Query, Vue 3, Nuxt 3, Pinia, React Native
- **UI:** Tailwind CSS, shadcn/ui, Vuetify, SCSS, HTML5, responsive design, design systems, Storybook, Figma
- **Backend and tools:** Node.js, REST APIs, Supabase, Docker (basic), GitLab CI/CD, Vercel, Jest, Playwright
- **AI:** Claude Code, MCP servers, multi-agent systems, LLM integrations, Vercel AI SDK
- **Languages:** English (working proficiency), Hebrew (basic), Russian (native)

SIDE PROJECTS

- **genwidget-ai** — AI chat that answers with live React widgets (generative UI, Vercel AI SDK). pet1.dtem4ik.dev
- **Olim App** — guide for new immigrants in Israel, offline PWA (Next.js, Supabase). olim-app.vercel.app
- **Next.js AI Portfolio Kit** — open-source portfolio built from GitHub activity (Next.js, Supabase). dtem4ik.dev
- **Carwash SaaS** — multi-tenant SaaS for car-wash networks: Next.js and FastAPI monorepo, Playwright e2e.

EDUCATION

Bachelor's, Computer Science and Software — Kazakh Academy of Labor and Social Relations, 2019 – 2022
