SUMMARY

Frontend engineer who builds products, not just screens. 7+ years in frontend with React, Next.js, TypeScript, Vue 3 and Nuxt 3. Built from scratch the sales platform a real estate developer runs on daily, shipped three LLM features to production and was the sole frontend engineer at an Israeli B2B SaaS.

EXPERIENCE

Frontend Engineer (Contract)

Sep 2025 – Mar 2026

Satya Digital Intelligence — Herzliya, Israel · B2B SaaS (OSINT) · on-site

- **Owned the entire frontend** of a multi-tenant OSINT platform for enterprise clients: 15+ screens reworked, 6+ new ones from whiteboard sketch to production, no designer.
- **Auth and permissions:** moved auth to Descope in under 3 weeks with the backend; built ~50 granular permissions combined into custom roles.
- **Analytics and Node.js:** usage dashboards with charts, tables and filters, plus a Node.js microservice for reports (React, Next.js, TypeScript, shadcn/ui, TanStack Query, Jotai).

Frontend Engineer

Oct 2024 – Jul 2026

Galereya Novostroek — Almaty, Kazakhstan · Real estate · remote from Israel Sep 2025 – Mar 2026

- **Inventory and sales platform (Shakhmatka), built from scratch:** replaced Flatris and Excel: 40+ residential complexes, live CRM sync, 40–60 daily users, one source of truth for prices and bookings (Nuxt 3, TypeScript).
- **Call QA, from Excel to AI:** replaced Excel audits with a web checklist and per-manager analytics, then wrote the LLM agent prompts that now score transcribed calls and give coaching tips.
- **AI for live sales:** search that turns “2 rooms under 15M” into filters mid-call, and an assistant that suggests talking points from the deal.
- **Platform and team:** moved the website to Nuxt 3 with SEO and i18n, built a WebView buyer app and GitLab CI/CD; guided a junior developer.

Frontend Engineer

Nov 2019 – Sep 2024

Ibec Systems — Almaty, Kazakhstan · Web development agency

- **30+ projects** for banking, fintech, e-commerce and media clients, all with i18n in 3 languages and technical SEO.
- **Kino.kz and Bigroup (React, Next.js):** rebuilt the Kino.kz home page and owned its Apple Pay checkout; full Bigroup redesign.
- **BankRBK:** full redesign on Nuxt plus a complete accessibility version for blind and low-vision users.
- **nuxt3-ui-kit:** co-authored the agency’s component library, tested with Storybook and Chromatic.

Web Developer

Sep 2018 – Aug 2019

Aida Service — Almaty, Kazakhstan · E-commerce

- Built the aida.market website and internal web applications (Vue, Nuxt, Node.js, WebSockets).

SKILLS

- **Frontend:** React, Next.js, TypeScript, JavaScript, Redux, TanStack Query, Jotai, Zod, Vue 3, Nuxt 3
- **UI:** Tailwind CSS, shadcn/ui, SCSS, design tokens, accessibility (ARIA, WCAG), i18n, SEO, Storybook, Chromatic
- **Backend and tools:** Node.js, REST APIs, PostgreSQL, Supabase, Docker, GitLab CI/CD, Vercel, Playwright, LLM integrations
- **Languages:** English (professional working proficiency), Hebrew (basic), Russian (native)

SIDE PROJECTS

- **genwidget-ai** — AI chat that answers with live React widgets (generative UI, Vercel AI SDK). pet1.dtem4ik.dev
- **Olim App** — guide for new immigrants in Israel, offline PWA (Next.js, Supabase). olim-app.vercel.app
- **Carwash SaaS** — multi-tenant SaaS for car-wash networks: Next.js and FastAPI monorepo, Playwright e2e tests.
- **Next.js AI Portfolio Kit** — open-source portfolio built from GitHub activity (Next.js, Supabase). dtem4ik.dev

EDUCATION

Bachelor's, Computer Science and Software — Kazakh Academy of Labor and Social Relations, 2019 – 2022
